ENTRANCE SYSTEMS

Entrance Systems

Sentech offers a complete line of storefront solutions using jumbo glass panels and door systems. Our parametric engineering technology ensures the delivery of complete designs and calculations in a few hours, and allows for fabrication drawings and material delivery in short timeframes.

With emphasis on service and speed of delivery, the customizable designs afford unparalleled design flexibility. The storefront systems are available with or without glass fins, and are suitable for laminated, monolithic, or insulated glass applications.

- Glass options: monolithic tempered, laminated or insulated
- Configuration options: glass fin-supported or clear span (without fins)
- Storefront heights: up to 20'
- Swing doors: patch fitting or rail-supported, with monolithic glass
