# VETRAFIN A-SERIES

## VetraFin A-Series

---

Sentech's VetraFin A-Series System is a highly transparent, cost-effective aluminum fin structural glass system for façades with either full-height face glass or horizontal joints.

This proprietary system offers unparalleled flexibility in design and finish options, offering simple lines, minimal connections, and a unique look with no exterior hardware, bolts or plates. It can be used with monolithic, laminated or insulated glass for a wide variety of applications- including blast/bullet-resistant, overhead, floor and façade applications.

---

- 6061-T6 aluminum construction
- Walls 100'+ with mid-span bracing
- Walls up to 40' tall, without mid-span bracing
- Maximum IGU size with high-performance coatings = 10'-9" x 60'
- Recommended fin spacing = 6' to 8'
- Use with monolithic, laminated & insulated facades
